NA Hackathon 2019 – Xcelerate – Project Sneak Peek

Notification Hub

"Every team in Chubb has to build the capability to notify users in their choice of medium, like email, text or web.

Build a solution using API, third party services (Twillio, Azure Notification services, marketing cloud) on Event Bus"
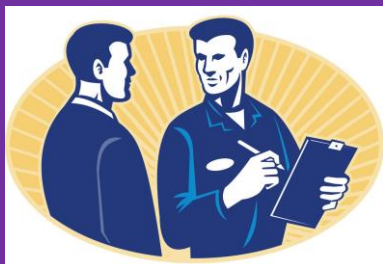

Contact Center

"Centralize distribution and management of underwriter and marketing contacts for products. These contacts are needed

in all marketing pages and by agents who sell our products on the ground"

Image Analyzer

"Expedite and optimize claims reporting and processing by image/video analysis. Use our third party provider CCC to get

information on the damages from the vehicle images."

NA Hackathon 2019 – Xcelerate – Project Sneak Peek

Notification Hub
